

## M-Safe Full-Nitrile Cut 5 14-700

- Premium quality double coated glove ("Sandy Finish")
- A 13 gauge seamless HDPE liner for optimum comfort and excellent cut resistency
- The Sandy Finish coating has an unique open structure which contributes to an optimum grip in oily environments in particular
- Impenetrable to water and oil and therefore suitable for working in wet or oily environments
- Prevents allergy risks at work with extensive contact with oil
- Excellent comfort due to the great fit
- Extra long wristband (5 cm) which contributes to maximum protection of hand and wrist
- The dark colour makes the glove extremely suitable for use in environments with a certain degree of pollution
- The lining keeps your hands dry and cool
- Sizes: from 8 to 11 incl.

### Applications

- Glass Industry
- Metal Industry
- Construction
- Automotive
- Oil Assembly Technology
- Petrochemicals
