Robust glove with a service temperature of up to 900 degrees Celsius.
5-finger glove made of IHR-coated fibreglass.
The glove has good mechanical resistance and also has good resistance against welding flashes and splashes of molten metal. The glove is also very suitable to hold and move hot objects.
The glove is supplied in one size.
The glove must not be washed.

Used palm-side materials:

- IHR-coated fibreglass
- Voluminous fibreglass
- Light-duty Para-aramid felt

Used materials on the back:

- IHR-coated fibreglass
- Light-duty Para-aramid felt
